

POOVESH V

Frontend Developer

☎ 8015780957 ✉ poovesh057@gmail.com 🔗 LinkedIn 🌐 GitHub 🌐 Portfolio

Summary

A passionate and detail-oriented **Frontend Developer** with hands-on experience in building responsive and interactive web applications using HTML, CSS, JavaScript, React, and Angular. Committed to writing clean, efficient, and user-friendly code with a strong focus on performance and usability.

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Angular, Tailwind CSS, Bootstrap

Version Control: Git, GitHub

Tools & Others: VS Code, npm, Responsive Design, REST API Integration, SEO Basics

Projects

Food Order App | *React, CSS, API Integration* 2025

– Developed a responsive food-ordering application with real-time menu updates and shopping cart functionality.

Weather App | *React, OpenWeather API* 2025

– Built a weather application that displays real-time temperature, humidity, and weather conditions using API data.

User Form App | *React, Form Validation* 2025

– Created a dynamic form with real-time validation and error handling using React Hooks.

To-Do List App | *React* 2025

– Developed a task management application with persistent local storage and task editing and deletion features.

Redux App (Practice Project) | *React, Redux* 2025

– Implemented state management using Redux to understand global state management and improve application state handling.
